Subject: Microsoft Settlement

Microsoft has developed their products for several years. It has produced programs and systems that has greatly benefited

millions of consumers, businesses and governments. Without Microsoft's innovations and market savvy we would still be in

the dark ages of the computer world

Now comes a horde of lawyers (like vultures) seeking to gain large settlements for their benefit. I am convinced that they

are not acting to benefit consumers. Just for their own greed

Let us put this whole case to rest and let Microsoft continue to be innovative and produce their superior products for all

consumers.

Sincerely;
Leland A. Younkin
